

The BIRNS TubeLight™ Provides Intense Illumination in a Small Package

The [BIRNS TubeLight™](#) delivers powerful 10,000+ lumen brilliance for 360° underwater drop-light use in confined spaces. It's compact (only Ø48mm) and versatile (100W to 500W) with a wide range of accessories to tailor it to a variety of demanding nuclear applications. It operates at up to 300M, and has a sturdy stainless-steel construction.

Plus, like many of our rugged nuclear lights, it also features our own tool free-mateable subsea-grade underwater connectors. The system provides easy decontamination, and features comprehensive GFCI/ELCB compatibility. The BIRNS TubeLight uses a [detachable power cable assembly](#), and an optional suspension assembly is available.

This powerful droplight provides the perfect combination of high performance, small size, and high radiation tolerance required for reliable, precision lighting inside containment. So whether you need to illuminate narrow pipe or inspection tubes, remote tooling or equipment, or for complete, easy to manipulate lighting of any pool, this rugged, small but mighty light is trusted in nuclear power stations worldwide.

BIRNS 2019 Scholarship Winner

We are so proud to announce the recipient of our annual Debra K. Geist Memorial Scholarship, Jarrod Norton. Norton will be going to Occidental College in the fall and was honored at a recent ceremony at the company, where he received a scholarship award of \$500 to be used toward college.

The late Debra Geist was BIRNS' Purchasing Agent for many years, before her sudden and tragic passing. In her memory, the company created an annual college scholarship program to encourage and recognize high school students with strong leadership potential, committed to the pursuit of excellence in a business career. Norton definitely fits that bill—he is a three-time USA Water Polo Academic All American, an International Baccalaureate Diploma Program Candidate and an AP scholar with honor. He serves as a tutor and Academic Peer Mentor at his school, where he tutors special needs students in English, Health, and History.

"Jarrod is clearly an extremely driven, accomplished young man, who is destined to be both an academic and professional success," says Eric Birns, President and CEO of BIRNS. "We are proud to award him the scholarship, as he certainly embodies its principles."
